

Summer Reading Program

Dear Parents:

Assalamu Alaikum

Al-Hamra Academy highly values a positive attitude towards learning and strongly supports the life-long quest for excellence.

Reading is a critical skill to practice and master not only during the school year but also in the summer months. Children who aren't engaged in enriched reading and writing experiences during the ten weeks of vacation will experience a decline in literacy skills. To prevent this regression, seize the opportunity to have fun and create lasting memories while strengthening English competency during the summer.

Each Reading/Language Arts teacher has compiled a list of required and recommended books to engage students during the summer. We strongly encourage all students to actively read at least one book each week, however, keeping in mind potential travel plans and various summer engagements, we have set **three books** as the minimum requirement. The book list is attached.

Upon returning to school in the fall, students will discuss and examine the required books in their classes. A summer reading examination on the major story elements may be administered to students entering the second grade.

The success of the summer reading program is dependent upon the **support** of each parent. We hope that you will encourage your child to read daily. Please remember to sign the reading assignment form and return it in September.

In conclusion, reading *with* your child is one of the strongest motivational factors. If you have younger children share the joys of literature by reading to them daily. Have an enjoyable summer and remember to READ!

Kind regards,

Sr. Nafees Kosak
